No. 117.—The question has been raised as to whether the execution of bailable and non-bailable warrants in the case of offences under the Madras District Municipalities Act, 1920, could not be entrusted to municipal sanitary inspectors who have been empowered, under section 187 of that Act, to exercise the powers of a police officer for the purpose of that Act. A municipal sanitary inspector may be a police officer for the purposes of the District Municipalities Act, but, he is not one for the purposes of the Criminal Procedure Code. The Government therefore consider that the duty of arresting persons against whom warrants are issued by magistrates should generally be entrusted to the regular police.

Fort St. George, February 3, 1923 (*G.O. No.* 317, *L. & M.*).

No. 123.—In part F of their report communicated with G.O. No. 341, L. & M., dated 28th February 1921, the Accounts Committee have suggested certain units of cost and methods for calculating the cost of each unit, for preparing costing statements. The Government have considered these suggestions.

(i) (ii) (iii) and (vi)—*Roads, Lighting, Schools, Epidemics and Sanitation. Paragraphs* 20 *to* 21 *and* 28 *of the Accounts Committee report.*—The Government accept these suggestions and commend them to local bodies for adoption.

(iv) *Hospitals and Dispensaries. Paragraphs* 25 *and* 26 *of the report.*—The Surgeon-General considers that the recommendations of the Committee are not easily workable. He has therefore suggested a different set of units of cost and the method of calculating the costings without any necessity for keeping separate accounts for out-patients and in-patients in a hospital. These suggestions as shown in the appendix to this order are suitable for all practical purposes and the Government commend them to local bodies.

(v) *Investing dispensaries.*—The Government accept the recommendations of the Committee that no costings need be worked for these dispensaries.

(vii) *Water-supply.*—The Government consider that the costing for water-supply should be worked out per head of population and also for a unit of 1,000 gallons.

(viii) *Transport Branch. Paragraph* 32.—The units proposed are accepted.

Paragraphs 31 *and* 33.—Orders will issue separately in respect of these paragraphs.

APPENDIX.

Hospitals and dispensaries—Method of calculating the costings without the necessity for keeping separate account for out-patients and in-patients in a hospital.

For out-patients—Cost per out-patient per day of attendance.

For in-patients—Cost per occupied bed per day.

Methods of calculating the costing according to the unit proposed.

Without altering the existing system of account and without the necessity for maintaining separate accounts for the out-patients and in-patients in the case of hospitals, separate costing statements for in-patients and out-patients may be worked out in the following manner :—

Out-patient.—Take for instance North Arcot district. In this district there are ten purely out-patient dispensaries, and eight hospitals with in-patient accommodation as well as out-patient. The total expenditure on each out-patient dispensary is known to local bodies. The total number of out-patients treated during the year in these dispensaries is also known. *The cost per out-patient per day of attendance* in the dispensary is obtained when the total expenditure on the dispensary for the year is divided by the total number of out-patients treated during the year. The total number of out-patients treated during the year is obtained by multiplying the daily average attendance by 365

If an average is taken for all these ten dispensaries in North Arcot district, the cost per out-patient per day of attendance for all the dispensaries in the district is obtained.

This average cost may be safely taken to represent the average cost for treating each out-patient in the out-patients department attached to each of the eight hospitals in the district. Thus the necessity for keeping separate accounts for the out-patients department is obviated.

In-patients.—The total expenditure incurred on the hospital during the year is known to a local board or a municipality. The total number of out-patients treated and the total number of in-patients treated during the year are also known. The cost of the working of the out-patient department alone can be arrived at by multiplying the total number of out patients treated in the hospital during the year by the cost per out-patient *per day of attendance in the district.* If the result thus arrived at, *is deducted from the total expenditure of the hospital for the year,* the balance is the expenditure on the in-patient department alone.

The cost per occupied bed during the year is obtained by dividing the total expenditure on the in-patients by the average daily number of in patients in the hospital The cost per occupied bed per day is obtained by dividing the cost for the year by 365

2. The underlying principle in working out such costing estimates is said to be "to enable the executive of the local body, the local tax-payer and the Government to see clearly the cost of the unit and to institute such comparisons either with the expenditure of previous years or with the result obtained elsewhere as will facilitate the work of control". To arrive at a correct unit of cost as will facilitate comparison with the results obtained in other districts, it is necessary that all capital expenditure should be excluded for the purpose of calculating costing statements. The recurring expenditures such as annual repairs on buildings, etc., should be regularly incurred. The charges on account of supplies received and expended in the previous year should be debited to the previous year's account. Similarly sums paid in advance for articles to be supplied next year should be charged to the next year's accounts. Unless the expenditure is regularized and the accounts are properly kept, the costing statements will not only be unsatisfactory, but will give every fallacious figures

NOTICE OF CONDITIONS OF ISSUE OF FIXED FEE FOREIGN LIQUOR LICENCES.

No. 2.—The following notification is issued in supersession of Notification No. 2, dated 19th January 1922, published in the Supplement to the *Fort St. George Gazette*, Part II, dated 24th January 1922 :—

In exercise of the power conferred on him under section 4 (*g*) of the Madras Abkari Act, 1886 the Commissioner of Salt, Abkari and Separate Revenue, hereby prescribes, under section 24 of the Act, the following rules for regulating the issue of licences on fixed fees for the compounding, blending, bottling and sale of portable foreign liquors and coconut toddy arrack from and after the 1st April 1923 within the limits of the Madras Presidency :—

1. The term "foreign liquor" in these rules includes all wines, spirits and beer imported into the Presidency by sea or land; plain rectified spirits imported or locally made and on which the tariff rate of duty has been paid; spirits manufactured or compounded in the country and made in solely

and flavour to resemble gin, brandy, whisky or rum excised at the tariff rate of import duty; and beer brewed in India or beer imported in a condensed form and afterwards converted into portable beer and duly excised, but excludes denatured spirits, coconut toddy arrack and ordinary arrack. In the case of licences to chemists, druggists and other approved firms or persons, however, for the sale of pure rectified spirits only, the term "foreign liquor" means pure rectified spirits imported from foreign countries by sea or manufactured in this country and excised at the tariff rate of duty.

NOTE.—The minimum strengths at which imported and locally-made foreign spirits can be sold are 25° U.P. for gin and 24° U.P. for all other kinds of spirits including Indian arrack, except denatured spirits, soluble arrack and coconut toddy arrack.

"Indian" beer is beer brewed in India (a) which contains at least two bushels of malt and two pounds of hops per hogshead and in the manufacture of which jaggery or crude cane sugar is employed, (b) which is brewed at a higher original gravity than 1,058° on a standard saccharometer and (c) the maximum price of which at the brewery is Rs. 40-0-0* per hogshead *plus* the excise duty in force at the time of issue.

"Coconut toddy arrack" is spirit manufactured from toddy at the Cheroghai distillery in Malabar and excised at Rs. 17-8-0 per proof gallon: its sale is permitted in all foreign liquor shops except those licensed for the exclusive sale of beer, medicated wines and rectified spirits. The maximum limit of private possession is two imperial gallons.

2. Licences for the sale of foreign liquors and coconut toddy arrack shall be of the following descriptions :—

I. *Wholesale licences for the sale of foreign liquor and coconut toddy arrack not to be drunk on the premises.*—These will be issued on an annual fee of Rs. 250 at the discretion of Collectors. Under these licences the sale of liquor in quantities less than two imperial gallons or a dozen reputed quart bottles or ten dozen reputed pint bottles of each kind at a time is prohibited. The holders of this licence will have the privilege of issuing to licensed dealers only samples of liquor in quantities not exceeding one pint. In Madras town, holders of this licence will not be allowed to sell "Indian" beer. Holders of this licence are prohibited from selling coconut toddy arrack in bulk to private persons in Malabar district and are permitted to sell it to such persons only in bottles, sealed and labelled in accordance with the bottling rules.

II. *Retail licences for the sale of foreign liquor and coconut toddy arrack not to be drunk on the premises to any person.*—These will be of two kinds—one for the sale of all kinds of foreign liquor, except "Indian" beer and of coconut toddy arrack and the other for the sale of beer brewed in India.

† (a) The former will be issued at the discretion of the Board and Collectors on payment of an annual fee of Rs. 1,000 in the Nilgiris except Gudalur, Rs. 600 in the town of Madras, Rs. 250 in towns having a population of 25,000 and over and in Kodaikanal, Yercaud and Cochin, and Rs. 150 in the rest of the Presidency. Under these licences the sale of liquor in a quantity less than one reputed pint and greater than two imperial gallons in one transaction will be prohibited.

(b) Retail licences for the sale of beer brewed in India will be issued to successful bidders for beer shops on payment of an annual fee of Rs. 50.

III. *Hotel licences for the supply of residents in hotels and boarding-houses.*—These will be of two classes and subject to a payment of an annual fee of Rs. 250 or Rs. 150 in Madras, of Rs. 100 or Rupees 50 on the Nilgiris, and of Rs. 50 or Rs. 25 in the rest of the Presidency, as may in each case be determined by the Collector. No liquor may be sold under these licences otherwise than to residents in hotels and boarding-houses for their own use and that of their guests, or to casual visitors requiring liquor with the meal or meals supplied to them.

In Madras a holder of a hotel licence desirous of setting up and maintaining in his hotel a bar or bars may, on payment of a monthly fee of Rs. 100 for a first-class bar or Rs. 50 for a second-class bar, be granted a separate licence to be called a bar licence. This will cover the sale of foreign liquor and coconut toddy arrack under the same conditions and to the same extent as the tavern licence.

In Madras, special bar licences will also be issued to others than holders of hotel licences with the previous sanction of the Board of Revenue. The fees in such cases will be fixed by the Board and the licences will entitle the holders to sell to all comers.

IV. *Refreshment-room licences* will be of two classes—

(a) *For refreshment-rooms maintained by, or under the supervision and control of, railway companies and proprietors or managers of lines of dâk carriage for the supply on the premises of travellers by such railways or dâk lines.*—The annual fee payable for each licence will be fixed by the Board from time to time. Under these licences liquor may be sold to *bonâ fide* travellers, or to other persons served with regular meals in the rooms for consumption on the premises to any extent, provided that no more than one reputed quart of spirits or two reputed quarts of any other kind of liquor sold at the refreshment-room may be sold at one time to any such travellers for removal from the premises.

(b) *For refreshment-rooms in which the sale of liquor is ordinarily combined with the supply of meals or of suitable prepared and served in the European manner.*—The annual fee will be Rs. 500 in Madras and Rs. 75 in the rest of the Presidency. It will at all times be optional with the Collector to withdraw licences of this description if it should appear that the sale of liquor to persons who have not partaken of meals in the refreshment-room is permitted to such an extent or so habitually that the refreshment-room may fairly be classed as a tavern. Sale of liquor for removal from the premises will not be allowed under these licences. The premises to be used for the sale of liquor under these licences must be at least of the monthly rentable value of Rs. 50 in Madras and in Ootacamund and Coonoor municipalities and of Rs. 25 in the rest of the Presidency.

V. *Occasional licences*, such as licences for the sale at refreshment stalls in connexion with race meetings and public entertainments. These will be granted by Collectors at their discretion for

* The maximum price of Indian beer at the Bangalore brewery will be Rs. 25 per hogshead (less boiling duty) and the supply will be restricted to shops which have obtained beer from that brewery during 1922-23.

† NOTE.—In places where there are beer shops, holders of retail licences for the sale of all kinds of foreign liquor except Indian beer will be permitted to sell beer brewed in India on English principles only in bottles as bottled at the brewery at which it was brewed.

periods not exceeding ten days at one time and at such fees not exceeding Rs. 100 on each occasion as they may determine. No removal of liquor from the premises will be allowed under these licences.

VI. *Special licences* will also be granted by Collectors in consultation with the officers of the Salt, Abkari and Customs Department when the circumstances are such as not to allow of the issue of licences of any of the above descriptions on such terms and conditions and for such periods as they may on each occasion determine.

VII. *Auctioneers' licences.*—Annual fee, Rs. 5. The following are important provisions of this licence :—

(a) Liberty to give sample bottles in respect of all consignments, whether trade consignments or the property of private persons, in order that intending purchasers may have the opportunity of testing high class wines and spirits at their own houses before the auction sale.

(b) Authority to sell wines, spirits and beer in less quantities than whole dozens of each description in the case of sales by auction of the property of private parties or estates or of trade consignments which are unclaimed or otherwise unmerchantable.

(c) Authority to sell by auction at places other than that specified in the licence, viz., at any private residence at which the licensee may hold an auction.

VIII. *Licences for the sale of pure rectified spirits.*—These will be issued to chemists and druggists and other firms or persons specially approved by Collectors, on payment of an annual fee of Rs. 10. Under these licences the possession of pure rectified spirits in excess of ten imperial gallons (or such larger quantity as the Collector may, in consultation with the officers of the Salt, Abkari and Customs Department, specially authorize) is prohibited. Pure rectified spirits must not be sold under these licences for other than *bona fide* medical, industrial and scientific purposes, and the maximum limit of sale at one time to the same person is restricted to one reputed pint in the case of sale to a private individual, two reputed quarts in the case of sale to a chemist, medical practitioner or scientific body and three imperial gallons to any Government, Local Fund or Municipal hospital.

IX. *Licences for the sale of redistilled wines and similar preparations* containing 20 per cent and upwards but not more than 42 per cent of proof spirit will be issued by Collectors on payment of an annual fee of Rs. 10.

5. *Licences for compounding or blending foreign liquors* will be granted to holders of wholesale licences by Collectors and licences for *compounding* to licensed distillers by the Assistant Commissioner of Distilleries on payment of an annual fee of Rs. 250.

4. *Licences for the bottling of foreign liquors, except beer brewed locally and of coconut toddy arrack*, will be granted to holders of wholesale licences by Collectors and to licensed distillers by the Assistant Commissioner of Distilleries on payment of an annual fee of Rs. 50.

5. Any two or more of the above kinds of licences may be granted to the same person for the sale of liquor in the same premises.

6. No premises shall be used for the sale of liquor unless and until approved by the Collector.

7. All licensees shall maintain and furnish to Collectors statistics showing separately the consumption of imported foreign liquors and locally-made spirits and beers and coconut toddy arrack.

8. All licences (other than occasional and special licences) will have effect for the official year, i.e., from the 1st April in each year until the 31st March of the following year.

9. The fixed fees exceeding Rs. 50 on all licences (other than special and occasional licenses) will be payable in two instalments, one-half being payable when the license is issued and the other half at the beginning of the second half-year, viz., 1st October.

10. For the convenience of the trade, Collectors will, as far as possible, receive and dispose of applications for licences under clause IV (3) to have effect during the following official year before the tavern sales for that year. Licences for the sale of liquor in mofussil refreshment-rooms should be very sparingly given.

11. All further information may be obtained and forms of licenses may be procured at a charge of two annas each at the offices of Collectors.

No. 3.—In virtue of the power delegated to him in Government notification No. 625, dated 13th July 1896, the Commissioner of Salt, Abkari and Separate Revenue, hereby prescribes under sections 10 and 13 of the Madras Abkari Act, 1886, with effect from 1st April 1923 two imperial gallons as the maximum quantity of coconut toddy arrack manufactured in the Chowghat distillery of this Presidency which may be transported without a permit or possessed without a license.

No. 4.—In virtue of the power delegated to him in Government notification No. 485, dated 18th July 1896, the Commissioner of Salt, Abkari and Separate Revenue, with effect from 1st April 1923, hereby authorises licensees "for the wholesale vend of foreign liquor and coconut toddy arrack not to be drunk on the premises" (F L-1) to exercise all the powers and to perform all the duties of a Collector in respect of the issue of special permits under section 31 for the transport of coconut toddy arrack sold by themselves to foreign liquor dealers concurrently with the Collector and subject to the control of the Collector.

SALE NOTICE.

THE public are hereby informed that the right of manufacture of salt under the modified Excise system in the undermentioned salt pans in the Adirampatnam factory now known as section III, block I (gross area 41 acres 21 cents, occupied area 27 acres 41 cents), will be resold by auction by the Assistant Commissioner of Salt and Abkari Revenue, Negapatam subdivision, at the office of the Inspector of Salt and Abkari Revenue, Adirampatnam Circle, at Adirampatnam on 28th February 1923 subject to the following conditions:—

(1) The upset price will be Rs. 6,000.

(2) A deposit of Rs. 200 must be made by every prospective bidder before bidding.

(3) No person will be allowed to bid for another unless he holds a power-of-attorney from him authorizing him to do so.

(4) The selling officer may for valid reasons refuse to accept any bid and in case of dispute his decision shall be final. If for any reasons the highest bid is rejected, the selling officer may at his discretion either accept the next highest bid or commence the auction again.

(5) The sale will be subject to formal confirmation by the Board which will not necessarily accept the highest bid and it may either accept or reject the final bid at its discretion. Such formal confirmation will be tantamount to an acceptance of the bid.

(6) As soon as possible, after the auction is completed the deposits made by the unsuccessful bidders will be returned to them.

(7) On receipt of intimation of the final acceptance of the bid by the Board, the successful bidder shall at once pay half the bid amount after deducting from it the amount of deposit already paid by him and the other half in five equal instalments payable on 1st April 1924, 1925, 1926, 1927 and 1928. Should he fail to do so the deposit made by him under condition (2) supra will be forfeited and the salt pans will be resold or otherwise disposed of as the Board may direct, and the defaulter may be debarred from bidding again at any subsequent sales of salt pans by the Deputy Commissioner.

(8) Resales effected under condition (7) will be at the risk of the defaulting bidder who will forfeit all gain and, in the event of loss, will be required to make good the deficiency between the amount payable under the terms of the original sale and that payable by the successful bidder at the resale. In the latter case the forfeited deposits will be deducted from the loss arising from the resale and the remainder, if any, will be recoverable from the defaulter in the manner laid down in section 84 of Madras Salt Act of 1888. Should however the forfeited deposits be greater than the loss by resale, the whole of such deposits will be credited to Government. The defaulting bidder will be summarily liable to pay the whole amount if the salt pans are disposed of otherwise than by resale and such disposal results in loss to Government as compared with the original sale.

(9) The purchaser will be required to sign and deliver to the Commissioner a lease deed. License for manufacture of salt under the modified excise system will be granted to the successful individual after he has accepted the lease. The prescribed form of the modified excise lease and the licence can be seen at the office of the Assistant Commissioner, Negapatam subdivision, or of the Inspector, Adirampatnam Circle. The lease shall run for a period of twenty years from 1st January 1923. On the expiry of the lease or on resumption of pans for failure to fulfil the conditions at will notice and the lease deed, the lessee shall leave the demised premises in such order as is consistent with the due performance of the terms and condition of the lease, but shall not be entitled to any compensation for any expenditure that may have been incurred. The licence granted will be in force during the continuance of the lease and the lessee shall duly observe the terms of such license or any statutory modification thereof which the Government may at their discretion make.

(10) The licence and the lease shall contain the following special conditions:—

(a) The lessee shall adopt such methods of manufacture and shall lay out the reservoir-condenser and pans on such lines as the Commissioner may from time to time direct and shall comply with such rules in respect of storage and sale of salt as may be enacted from time to time.

(b) No salt below the standard of purity fixed by the Commissioner shall be manufactured and stored. No salt will be demanded from him for the first five years and in subsequent years the lessee shall, if so required, sell to Government the whole or any part of the salt so manufactured on the leased land in each year on receiving kudivaram at the rate prescribed for the Adirampatnam factory or such rates as the Commissioner may prescribe.

(c) The lessee shall maintain and repair at his own cost all the works incidental to manufacture as relating to the leased land, and if the lessee fails to do the necessary maintenance and repairs, these may be done by the lessor and the cost recovered from the lessee.

(d) The lessor may determine the lease in case of breach of lease conditions by the lessee or in case of delay in payment of dues by the lessee and cancel and forfeit the licence.

Subject to these conditions and those set forth in the licence and lease deed which will be read over to the successful bidder, he shall as lessee continue to enjoy the leased land undisturbed for a period of twenty years from 1st January 1923. Any further information may be had from the office of the undersigned or the Inspector, Adirampatnam Circle, during office hours on working days.

SALT, ABKARI AND CUSTOMS DEPARTMENT.

NOTIFICATION.

No. 1, *dated* 22*nd January* 1923.

NOTICE OF SALE OF ABKARI AND OPIUM PRIVILEGES.

Notice is hereby given that the number of independent shops appointed for the sale of liquor, opium and intoxicating drugs during the twelve months beginning 1st April 1923 and ending 31st March 1924 and the local limits appointed for them will be notified by Collectors in their District Gazettes, and that the privilege of sale therein will be put up to public auction on the dates, at the places and by the officers to be notified by Collectors subject to the conditions hereinafter set forth. The Collector of Malabar will notify separately the special conditions under which licences for the sale of arrack in the Attapadi valley will be granted on payment of fixed fees.

The districts in which independent arrack shops, foreign liquor taverns, beer shops and ganja and opium shops, respectively, will be sold are specified below :—

From 1*st April* 1923.

Arrack, ganja and opium shops.	Foreign liquor taverns.	Beer shops.
In all districts ..	In the districts of Godaveri, Kistna, Guntur, Bellary, Madras, Chingleput, South Arcot, Tanjore, Madura and Malabar.	In the districts of Nellore, Bellary, Chingleput, Chittoor, North Arcot, South Arcot, Tanjore, Trichinopoly, Madura, Coimbatore, The Nilgiris, Salem and Malabar.

Licences for the sale of foreign liquor which are granted on payment of fixed fees are dealt with in a separate notification.

Conditions of Auction Sale.

I. A deposit must be made by each bidder before bidding and will be received by the selling officer on the day of sale. A deposit of Rs. 50 will ordinarily be required from any person wishing to bid for any important shop or any large number of shops. This will be reduced to Rs. 20 in the case of bidders for not more than two or three shops of an aggregate monthly value of Rs. 50 or less and to Rs. 5 in the case of bidders for single small shops.

II. The shops will be put up to auction in the order in which they are notified, unless the selling officer sees reason to change that order. Upset prices will be fixed at the discretion of the Collectors. The reserve price placed by Government on the shops will not be published, but the average of the previous five years' rentals will be notified by the Collectors, wherever possible, for the information of bidders.

III. No person will be allowed to bid for another unless he holds a power-of-attorney from him.

IV. The officer conducting the sale may, at his discretion, refuse to accept the bid of any person on the ground (1) that he has been convicted by a Criminal Court or has previously been guilty of such a breach of the conditions of licence or of a contract under the Abkari Opium Act as to render him undesirable as a holder of a licence; or (2) that he is insolvent or in arrears to Government; (3) that his bid is purely speculative; (4) that he is a village officer or a relative of a village officer of the village in which the shop is situated or which is supplied by the shop or of a neighbouring village, (5) that he is a contract supplier of country spirits for the contract area within which the shop is situated; (6) that he is a brewer bidding for beer shops; (7) that such a course is necessary to prevent arrangements to the detriment of Government interests; or (8) for any other valid reason.

V. The shops will be knocked down to the highest bidder. If for any of the reasons mentioned in the preceding clause the highest bid is rejected, the next highest shall be taken or the shop resold at the selling officer's discretion. In case of dispute the selling officer's decision shall be final. The sale will be subject to formal confirmation of the Collector, who shall be at liberty to accept or reject any bid at his discretion. Such formal confirmation will be tantamount to an acceptance of the bid

unless revised by the Board of Revenue for special reasons, and will be necessary whether the sale be held by the Collector himself or by any officer appointed by him.

VI. At the close of each day's sale, the deposits made by the unsuccessful bidders will be returned to them. As the auction proceeds, each person whose bid is accepted shall at once, if so required by the selling officer, or otherwise at the close of the day's sale, make a further deposit of half a month's rent (in addition to the deposit made under clause I) for each shop unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit made by him under clause I will be forfeited and the shop will be put up again immediately by the selling officer on the above conditions or otherwise disposed of by the Collector and the defaulter will be debarred from bidding again for the same or for any other shop in the sales then in progress.

VII. Any person to whom a shop has been knocked down and who has made deposits as provided in clauses I and VI shall also deposit, in cash or approved security, within ten days from the date of communication of the Collector's acceptance of the bid, such further sum as with the former deposits will make up two months' rent and shall without unnecessary delay take out a licence on the conditions hereinafter set forth. In the event of the purchaser's death after issue of the licence, his heirs and assigns shall be responsible for all moneys that may become due to Government under the terms of the licence as well as for the proper observance of all the conditions of the licence. Should the initial deposit exceed two months' rental, the excess will be refunded unless the purchaser is requested to deposit twice that sum under clause VIII infra.

VIII. If on enquiry subsequent to sale the purchaser shall be found to be of doubtful solvency, he may be required either to deposit two months' rental in addition to the sum prescribed in clause VII supra, or to execute a mortgage of his immoveable property in favour of the Government for all moneys that may become due under the terms of the contract with a power of sale in favour of the mortgagee to be exercised in default of payment thereof by the purchaser. Or the purchaser shall be required to get a surety or sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract and to execute a mortgage deed of his or their immovable property in favour of the Government for the payment of all moneys due under the said contract by the purchaser with a power of sale in favour of the mortgagee to be exercised in default of payment thereof by the surety or sureties or by the purchaser. The bond and the mortgage deeds shall be stamped and registered at the expense of the purchaser. In all cases where sureties are demanded the licensee shall be bound to execute a counterpart agreement.

IX. On the failure of any person to make a deposit or take out a licence under clause VII or to comply with any requisition or to execute any engagement under clause VIII supra, the deposits already made may be forfeited and the shop may be resold under the orders of the Divisional Officer on a date to be notified by the Collector or may be otherwise disposed of by the latter officer. Besides under this clause will be at the risk of the defaulting bidder, who will forfeit all gain and, in the event of a loss, will be required to make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale. In the latter case, the forfeited deposits will be deducted from the loss arising from the resale, and the remainder, if any, will be recoverable in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by resale, the whole of such deposits will be credited to Government. The defaulting bidder will be similarly liable if the shop is disposed of otherwise than by resale and such disposal results in loss to Government as compared with an original sale.

X. The purchaser of any abkari or opium privilege is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal licence may not have been issued to him.

XI. The deposits referred to in clause VII or VIII may be made either in cash or in recognised Government, Port Trust, Municipal or Local Board securities, or by depositing Postal Savings Bank pass-books or deposit certificates obtained from the Provincial Co-operative Bank (Madras Central Urban Bank) or from any of the Central Banks approved by the Registrar of Co-operative Societies. When deposits are made otherwise than in cash, the Collector may demand that they shall be of such higher face value than the cash deposit required, as in the circumstances of the market he may think necessary. The securities or Savings Bank pass-books deposited must be endorsed in the name of the Collector and Government promissory notes must be endorsed for payment of interest at the treasuries at which they are deposited, if so required. In the case of Co-operative Bank deposit certificates, the deposits must be made in the name of the Collector of the district, the contractor must agree in writing that he undertakes the risks, if any, involved in the investment and the Banks must certify on the deposit certificate granted that the deposit is withdrawable on the Collector's demand.

Deposits in cash will be adjusted towards the instalments of kists due in the last months of the period of the lease. Deposits of securities or Savings Bank pass-books or Co-operative Bank deposit certificates will be returned upon payment of the full amount of the kists due in cash unless the depositors with that Government should take them over, in which case they will be taken over at the price of the day, and the balance, if any, due to Government must be paid in cash. In cases of default under clause IX of the conditions of auction sale or under condition 37 of the general conditions applicable to all abkari and opium licences, all securities deposited are liable to be sold for any amount due to Government under the terms of the lease, the remainder, if any, due after such sale, being recovered as arrears.

Condition of Issue of Licences for Wholesale Vend of Arrack.

XII. Applications for the privilege of wholesale vend of country spirits should reach the Collectors concerned on or before the 1st March 1923 and should be accompanied by a fee of Rs. 15 which will be returned to those persons whose applications for licenses are not approved. The grant of licenses confers no exclusive privilege, and it will be open to the Collector to grant licenses under like conditions to other persons at any time during the currency of the licenses for which applications are now invited. Licenses will be granted to private persons only if they have obtained the consent of the arrack supply contractor of the district to the opening of their depots and deposited such amounts as may be required by the Collector as security for the proper fulfilment of the conditions of the licenses. If such depots are not worked to the satisfaction of the Collector, they may be closed at any time. Wholesale depot licenses will not be granted to persons having interest in retail shops.

The licences issued under the above clauses will contain the following general conditions common to all abkari and opium licences and the special conditions prescribed below for any particular kind of licences.

General Conditions applicable to all Abkari and Opium Licences.

1. Shops and depots must be opened by the dates fixed by the Collectors and must be kept open every day unless their temporary or permanent closure is authorized under condition 10, 11 or 41 *infra*.

2. Except where definite sites in the possession or under the control of Government have been prescribed, purchasers of shops must make their own arrangements for securing proper sites for their shops. They are at liberty to choose any site within the local limits notified by the Collector, provided the site selected is approved of by the Revenue and Police authorities. The limits of the site selected and approved will be entered in the licence. The possession (except subject to the rules applicable to unlicensed persons) or sale of liquor, opium or intoxicating drugs outside these limits is prohibited.

3. Sales under any abkari or opium licence must be conducted in an approved building of which the whole or the whole of a separable part must be entirely set aside for the said depot or shop. In the case of arrack shops and taverns in municipalities, or towns having a population of 20,000 or over, there shall be no possible means of ingress or egress in any direction except into the main street; if there are other doors they shall be kept locked under the seal of an officer of the Salt, Abkari and Customs Department; the interior of the shop shall be sufficiently lighted by day and the whole interior visible from the front door; the shop shall not be used as a place of residence save by the vendor and his family or caretakers. If there are means of communication between the depot or shop and an adjoining dwelling house, they must be kept locked at night.

4. Except when two or more foreign liquor licences are held by one person or in the case of licences held by chemists and druggists and medical practitioners, sales under different licences must be conducted in different premises.

5. Private bars in liquor shops may be allowed by the Collector under a special licence to be granted by him free of fee; provided that the interior of the bar is wholly visible from the doorway, and that the entrance to it is either through the main door of the shop or through a separate door provided with a proper sign to show the nature of the bar.

6. A signboard must be affixed to the front of each depot or shop showing the nature and number of the licences under which sales are conducted there, the name of the licensee and (except in the case of foreign liquor) the current rate of sale. These particulars must be legibly painted in the local vernacular and in the case of taverns and wholesale depots in English also. The licence must be hung up in a conspicuous place within the depot or shop.

7. The possession upon any licensed premises of any liquor, opium or intoxicating drug except that to which the licence relates or of any essence or substance used or capable of being used for colouring or flavouring liquor except in accordance with the terms of a compounding license is prohibited.

8. Such supply of liquor, opium or intoxicating drugs as the Collector may consider sufficient to meet local requirements must be maintained in depots and shops.

9. No arrack shop, foreign liquor tavern or beer shop shall be opened before 9-30 a.m. and no other shop or depot shall be opened before sunrise.

10. (*a*) No depot or shop shall be kept open after 8 p.m. except under special authority. Collectors may at their discretion order the closure of any depot at sunset and may on the report of the Police or for other sufficient reasons order the closure of any shop at an earlier hour if they consider such a course to be advisable in the interests of the public. The Board may for sufficient reasons order the general closure of any kind or kinds or all kinds of licensed premises at any earlier hour than 8 p.m.

(*b*) Collectors are instructed to notify at the time of the auction sales that specified shops will be closed on the occasion of specified festivals, and that the hours of sale at specified shops which are situated within a mile of a market or shandy will be limited on market days generally so that they will be liable to limitation on such occasions by orders issued during the currency of the lease, if it is found that the shops promote drunkenness. Discretion is also allowed to Collectors to order the closure of specified shops in the neighbourhood of factories, mills and other places where large numbers of operatives assemble on week days from 11-30 a.m. to 1-30 p.m., on the afternoons of pay days and at all hours on Sundays except between 11-30 a.m. and 4 p.m. A special condition embodying these restrictions or liabilities will be inserted by the Collector in the licences granted to the renters of all such shops.

11. Depots and shops situated on or adjacent to line of march must be closed, if the Collector so orders, while a regiment or detachment of soldiers is passing or is encamped in the vicinity. Collectors or Divisional Officers shall have power also temporarily to close any shops in times of religious excitement or disturbance. Every depot and shopkeeper shall on his motion close his depot or shop when there is a riot or disturbance in the neighbourhood.

12. All liquor, opium and intoxicating drugs sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to liquor, opium or intoxicating drugs either to increase their intoxicating power or for any other purpose. This prohibition, however, does not apply to the compounding or blending of liquor or to the manufacture of intoxicating drugs from hemp drugs and opium in accordance with the terms of a licence. Liquor shall not be bottled except under a bottling licence. Nor shall different kinds of liquors be mixed and sold under the designation of one of them.

13. No woman shall be employed in any abkari or opium shop for the sale of liquor, opium or intoxicating drugs without the special permission of the Collector unless she be a member of the vendor's family.

14. The sale or transport of liquor, opium or intoxicating drugs by persons below the age of 18 or by persons suffering from leprosy or any contagious disease and the employment in any capacity of such persons in shops or depots licensed for the sale of the same are prohibited. No persons who have been convicted under the Indian Penal Code shall be employed in the transport or sale of liquor, opium or intoxicating drugs without the Collector's previous permission. The Divisional Officer may, where necessary, call for the names of all persons employed or proposed to be employed in any depot or shop and forbid the sale of liquor, opium or intoxicating drugs by any person of whom he may disapprove.

15. No liquor, opium or intoxicating drug shall be sold or given—

(a) Except at shops specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Cantonment or Camp, and then only in respect to such liquors as shall be approved by the same authority in consultation with the local Excise authorities and specified in the licence—

(1) to sailors of the Royal Navy, soldiers and members of their families; or

(2) to any other person living in barracks;

(b) (1) to persons whom a vendor knows, or has reason to believe, to be camp followers, i.e., any class of followers (other than private servants) whether on or off duty, who have a right to be in cantonments;

(2) to Policemen, Excise officers and Railway servants when on duty; or

(c) in any circumstances to any—

(1) European vagrant under escort of the Police;

(2) child or young person under eighteen years of age;

(3) insane person; or

(4) person known or believed to be intoxicated.

Note.—The restrictions in (a) and (b) do not apply to soldiers, their families and followers when they are absent on leave from their regiments.

16. No liquor, opium or intoxicating drug shall be sold in shops except for cash. The licensee shall be bound to give intimation of the offer of anything other than cash to the nearest Magistrate or Police officer. This condition is not, however, meant to restrict credit sales in the ordinary course of business by shopkeepers or firms of standing and respectability dealing in foreign liquor for consumption off the premises.

17. No liquor, opium or intoxicating drug shall be sold either below or above such minimum * or maximum † prices as may be fixed for sale of the same in accordance with the law for the time being in force.

18. No liquor, opium or intoxicating drug in excess of the quantities prescribed for possession without a licence as specified below shall be issued to any person at any one time from any licensed premises without a valid permit, nor shall liquor be sold at wholesale depots in quantities less than the minima prescribed.

26. Power is reserved to revenue officers to suspend licences in case of failure of payment of kists or in the case of toddy licences of tree-tax on the due date. In the case of arrack, toddy, ganja and beer shops and taverns, this power will be exercised by Tahsildars or Deputy Tahsildars in independent charge, in the case of opium shops by Divisional Officers and in other cases by Collectors. In the event of suspension of a licence for failure to pay arrears, the privilege of sale will be resold with effect from the date of issue of the licence to the new purchaser, or otherwise disposed of at the Collector's discretion. All losses on account of suspension and resale or other disposal of the privilege shall be borne by the defaulting licensee, but he shall have no right to any gain which may accrue. The whole of the deposit, if any, made by the licensee shall be liable to forfeiture. The officer who has power to suspend the licence may at his discretion allow sales to continue pending resale or other disposal of the privilege.

† For opium shops in the Agency division a uniform rate of one rupee a tola has been fixed.

27. No privilege of supply or vend shall be sold, transferred or sub-rented without the Collector's previous permission. Nor, if the Collector so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

(b) No shkari or opium licensee in any area in British territory may have any interest in or hold a licence for the same article in any other area in British territory in which a different rate of duty is in force, without the special permission of the Collector for which the party concerned must apply without delay. Breach of this condition will render the party liable to the penalties prescribed by condition 27 in respect of all or any of the licences held.

29. Such returns and information as may be required by the Divisional Officer from time to time shall be furnished by holders of licences.

30. Licensees are bound to report to the Divisional Officer all instances which come to their knowledge of persons employed by them in the manufacture, transport or sale of liquor, opium or intoxicating drugs, committing breaches of the Abkari / Opium laws and to comply with the Divisional Officer's orders respecting the continued employment of such persons.

31. Pecuniary dealings by licensees of any kind whatever with officials of the Salt, Abkari and Customs Department are absolutely prohibited.

32. With the sanction of the Board of Revenue, any licence shall be revocable by the Collector at his discretion on giving the licensee fifteen days' notice of such revocation, in which case a proportionate part of the fee paid will be refunded.

or (b) cancellation of licence and resale or other disposal of the privilege at the risk of the licensee and, if considered necessary by the Collector, forfeiture of deposits;

or (c) prosecution of the licensee or his agents for the specific offence committed.

The rent for the whole lease shall become due at once, when a lease is cancelled under this condition.

NOTE.—For continuing breaches of a license, continuing fines may be imposed.

38. Any licensee may be forfeited and the privilege be resold or otherwise disposed of at the risk of the licensee if the licensee be convicted before a Magistrate of any offence against the Abkari / Opium Act, or of any offence under the Indian Penal Code, which in the Collector's opinion renders him unfit to hold it, or if it is brought to the notice of the Collector that the licensee has been convicted prior to the issue of a licence to him before a Magistrate of any such offence.

39. Any sum due by a licensee may be adjusted from the deposit, if any, made by him or collected under the Revenue Recovery Act as an arrear of land revenue. 6. The duty on spirits purchased from the contract supplier's distillery or warehouse must be prepaid into a Government treasury unless the contract supplier has an advance account with the treasury, in which case the duty may be paid to him up to the limit of the balance in his favour in that account. The cost price of spirits purchased should be paid to the contract supplier.

7. In the case of purchases from wholesale depots the excise duty must be paid to the depot-keeper with the cost price.

II.—Special conditions applicable to Arrack Wholesale Depot Licences.

1. Each cask in a depot shall have no capacity-mark, branded or painted on it. The licensee will be responsible for the correctness of such marks. The contents of casks of 60 gallons and upwards must be marked to the nearest half gallon, those of smaller sizes to the nearest quarter gallon.

2. In the following cases no consignments of spirits received at depots from distilleries and warehouses and, in the case of (b), from other depots shall be opened before they have been gauged and proved by an authorised Government officer :—

(a) In case of issues from the Viragapatam distillery to depots in the Ganapur Agency.
(b) In case of issues from one part of British territory to another which must pass through Indian States or Foreign Settlements.
(c) In case of issues from the Nellikuppam distillery to the low duty tracts of the South Arcot district.
(d) In case of issues from the Berwada warehouse to the Munagala and Lingagiri zamindaris of the Kistna district.
(e) In case of issues from the Samalkot distillery to depots in the Rampa Agency tracts.

In all other cases the depotkeepers are required to verify the consignments on receipt and correctly enter the result of the verification in their accounts; they may if they so desire postpone the gauging and proving till a cask is opened for issues in which case they are responsible for the contents as given in the distillery or warehouse permits. All casks received in a leaky or suspicious condition must be verified immediately on arrival at the depots.

3. No consignments of spirits which have to be transported through Indian States or Foreign Settlements shall be issued without their being sealed by authorised officers.

4. Each depot must be furnished with a hydrometer of such pattern as may be prescribed by the Commissioner of Salt, Abkari and Separate Revenue, a thermometer and a hung-rod. Hung-rods, and, if required, hydrometers and thermometers also will be supplied by the Department on payment of the cost.

Letters of advice relating to shops in the same range as the depot shall invariably be written up by the depotkeeper at the time of writing the permit and either sent to the Sub-Inspector or handed over to him when he next inspects the depot.

8. A wastage allowance up to 2 per cent on the quantity advised in each cask received at the depot will be allowed to wholesale depotkeepers who should submit to the Inspector of the circle in which the depot is situated a statement showing (i) the number of the cask received at the depot, (ii) the quantity advised in each cask, (iii) the quantity contained and (iv) the wastage ascertained in each case. The statement should be submitted not later than the 5th of the month following that to which it relates. All cases of wastage in excess of the 2 per cent limit will be dealt with by Collectors, at their discretion, by a fine not exceeding double the duty payable on the excess wastage. If the casks have passed through areas in which different duties are in force, the fine may be calculated on the highest duty prevailing in any of such areas. Only one cask should be kept open at a time for issue. Depotkeepers should show clearly in their account books the cask from which each consignment or part of a consignment is issued.

9. Depotkeepers are required to seal all consignments of liquor issued to shops at their own cost. GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Joint Committee on the Bill to provide for the restriction and control of the transport of cotton in certain circumstances was presented to the Legislative Assembly on the 24th January 1923:—

We, the undersigned, Members of the Joint Committee to which the Bill to provide for the restriction and control of the transport of cotton in certain circumstances was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

1. Paper No. I.—(Opinions from Delhi, Calcutta High Court, Assam and Baluchistan.)
2. Paper No. II.—(Opinions from Coorg, Ajmer-Merwara, North-West Frontier Province, Burma, Bombay, Bihar and Orissa and Central Provinces.)
3. Paper No. III.—(Opinions from United Provinces, Madras, Bengal, Punjab, Baluchistan, Coorg and Ajmer-Merwara.)
4. Paper No. IV.—(Opinions from the Indian Central Cotton Committee, Bombay.)

Mr. H. A. F. Lindsay has, since being nominated a Member of our Committee, ceased to be a Member of the Council of State, and four of the other Members of our Committee were unfortunately unable to attend the meeting.

Most of the amendments which we propose in the Bill are consequential upon a few cardinal alterations to which we refer in detail. The remainder are of a drafting nature.

The Preamble.—As one of the objects of the Bill is to check the practice of sending pressed bales from one cotton tract to another, ordinarily producing a better quality cotton, so that it may be re-booked from a railway station in that tract and thereby appear as if it were cotton grown in that area of better quality, we think the purpose of the Bill would be more correctly stated as the maintenance of the quality and reputation of the cotton grown in British India, and we have amended the Preamble accordingly. This also removes any difficulty which might arise in interpreting the terms inferior and superior varieties.

Clause 2.—We have made it clear in the definition of the expression "cotton" contained in sub-clause (*d*) that the enumeration of the various kinds of cotton referred to is exhaustive. We have also made a slight alteration in this sub-clause and in sub-clause (*g*) in connexion with the proposal to which we refer in our remarks on clause 3.

Clause 3.—We are impressed with the necessity of enabling a Local Government to prohibit the import into protected areas of all or any of the kinds of cotton specified in clause 2. In famine times it might, for instance, be necessary for a Local Government to permit the import into such an area of cotton seed which is extensively used as cattle food. This decision necessitates a considerable number of consequential alterations throughout the Bill, *e. g.*, in sub-clause (*f*) of this clause and in clauses 4, 5 and 7, in addition to those in clause 2 referred to above.

We have further provided in sub-clause (*i*) of this clause for the exemption from the provisions of the Act of all cotton which is consigned in packages not exceeding ten pounds in weight. This alteration is intended to secure the free movement of samples of cotton. The Upper India Chamber of Commerce advocated the exemption from the Bill of small parcels such as are ordinarily sent as samples and might in fact be despatched by parcel post.

Clause 5.—We are of opinion that fourteen days is a sufficient period to allow for the removal by the consignee from the station of destination of cotton which is covered by a licence.

Clause 6.—We have made it clear that an innocent contravention of the Act is not to be punishable.

We have further considered with care the proposal supported by the Local Government of Bombay and others that the Bill should provide for the confiscation of cotton in respect of which an offence under this clause has been committed, and we have by a majority (Messrs. Kamat and Saklatvala dissenting) decided not to make any alteration in this respect. We think that the difficulties which would arise in connexion with the seizure and identification of cotton after its arrival at a press or other place of destination would result in any such provision proving ineffectual, unless powers are given to the police and other officials which we are disinclined to provide until experience shows that they are necessary.

Provided that no such notification shall be deemed to prohibit the import into any protected area of packages containing any kind of cotton and not exceeding ten pounds avoirdupois weight.

(*2*) Any such notification may prohibit the delivery to, and the taking of delivery by, any person at any specified railway station situated in the protected area, of *any* cotton, *the import of which into that area is prohibited, when such cotton has been* consigned from a railway station not situated in that area, unless such person holds a licence for the import of the cotton into that area.

Procedure when cotton arrives at notified station

5. (*1*) Where any cotton, *the import of which into any protected area has been prohibited has* been consigned to *and* arrives at a *notified station in any such protected area*, the station-master or other railway servant responsible for the receipt and delivery to the consignee of goods or parcels, as the case may be, at that station shall, unless both the notified station and the railway station from which the cotton has been consigned are situated in the same protected area, refuse to deliver the cotton until he is satisfied that the consignee holds a licence for the import of the cotton into the protected area in which such notified station is situated; and, if he is not so satisfied, or if within *fourteen days* the consignee or some person acting on his behalf does not appear in order to take delivery, shall return the cotton to the railway station from which it was consigned, together with an intimation that delivery of the cotton has been refused or has not been taken, as the case may be.

H. MONCRIEFF SMITH,
Secretary to the Government of India.

The following Report of the Joint Committee on the Bill further to amend and to consolidate the law relating to the provision of house-accommodation for military officers in cantonments was presented to the Legislative Assembly on the 15th January, 1923 :—

We, the undersigned, Members of the Joint Committee to which the Bill further to amend the Cantonments (House-Accommodation) Act, 1923, was referred, have considered the Bill and have now the honour to submit the our Report.

2. At our first meeting, we elected Mr. E. Burdon, M.L.A., to be our Chairman. At that meeting we drew up a preliminary Report which was presented to the Legislative Assembly on the 11th of September. In that Report we explained our reasons for recommending that the provisions of the Bill should be incorporated in a measure re-enacting with amendments the existing law, and instructions were given to us in accordance with this recommendation. The Bill annexed to this Report is, therefore, an amending and consolidating Bill.

3. The following notes on the clauses of the Bill refer to all the changes of importance which we have made in the existing law as proposed to be amended by the original Bill. In addition to these, we have made a number of minor amendments to which we do not think it is necessary to draw attention in detail.

Clause 1.—In order to give time for the authorities to make necessary arrangements to enable effect to be given to the amended law we have provided that the Act shall not come into force until the first day of April, 1923.

Clause 2.—We have included in the definition of "military officer" officers of the Royal Air Force. We also made it clear that a Chaplain is only included in the definition when he is on duty with troops in the cantonment.

In the definition of "a state of reasonable repair" which was contained in clause 2 of the amending Bill we have substituted the word "properly" for the word "newly" as the latter might, we think, give rise to unnecessary disputes.

Clause 5.—Some of our members were anxious to insert here a provision avoiding all executive regulations, rules and instructions hitherto in force for the guidance of military officers in administering the law or latter to the provision of house accommodation, on the ground that various illegalities have been committed thereunder. We realize, however, that in so far as these instructions are *ultra vires*, it would be a work of supererogation to declare them void. Another objection which has been raised to these regulations, rules and instructions is that many of them are confidential, and the remainder are not published in such a way as to be readily accessible to the public. In the end, we have decided to leave the clause as it stands in the present Act without amendment on the assurance, which has been conveyed to us on behalf of the Government, that these regulations, etc., will be completely overhauled; that those, if there are any such, which are found to be inconsistent with the Act, and those which are found to be unnecessary, will be cancelled whether they are confidential or not, and that they will not be re-issued; and that of the remainder, those that are required as such will be enacted as rules made under the Act, and the rest, if still required as executive instructions, and if not for military reasons of a confidential nature, will be published in a convenient form.

Clause 6.—This clause and clauses 7, 16, 17 and 20 provide for the procedure which we recommend in the case of house appropriation. In the present Act, the power of deciding whether a house should be appropriated and of carrying the appropriation into effect is vested in the Cantonment Authority. We understand that it is the intention of Government shortly to introduce a measure liberalising the administration of cantonments, under which the Cantonment Authority will cease to be practically an official body and will, to a considerable extent, acquire the character of a municipal committee. We think it is necessary that the administration of a measure of this nature should be left in the hands of the military authorities, who are in fact entrusted with it at present. This proposal involves consequential amendments of the Bill in the above-mentioned clauses and elsewhere.

The first step towards appropriation will be an inspection of the house on behalf of the Commanding Officer of the cantonment. A notice will then be issued to the owner requiring him to execute the lease, vacate the house and put it in a state of reasonable repair. The proposed rent will be stated in the notice, as also a statement of the repairs which are considered necessary in order to put the house in a state of reasonable repair, and of the estimated cost of those repairs. If the owner does not repair the house within the time required, the Commanding Officer of the cantonment may by notice require him to do so in fifteen days. Against this notice the owner has a right of reference to a Committee of Arbitration and from its decision an appeal to the Civil Court on the questions of the amount of rent and of the necessity for the repairs. If the owner by failing to appeal allows the notice or the decision of the Committee to become final and still does not execute the repairs, or if he fails in executing any repairs in accordance with an appellate decision, the repairs may be carried out at the expense of the Government and the amount will be recoverable from the rent.

Clause 7.—We have added to sub-clause (*5*) a provision making it incumbent upon the Government or its tenant to maintain any garden belonging to the house.

Clause 12.—We have provided for a non-official Chairman to be nominated by the Commanding Officer of the cantonment.

Clause 17.—We have here laid down that the rent of an appropriated house shall be calculated on the actual market-value of the house at the time at which it is appropriated, and that the rate of rent to be taken shall be that obtainable in the case of a similar property in the cantonment.

Clause 19.—Some of our members were in favour of increasing the period allowed for an appeal to the Civil Court. In view, however, of the fact that during the period of limitation and for some time previously the house might be uninhabitable by reason of the necessity of repair, whilst at the same time the Government would be bound to pay rent, we decided by a majority that it is unnecessary to allow more than one month to the owner for the purpose of making up his mind whether to appeal or not.

Clause 31.—We have not made any addition in sub-clause (*f*) to cover specifically any rules which may be made in order to replace the executive instructions to which we have referred in our remarks on clause 4. We intend that they shall, if necessary, be made under the power conferred by sub-clause (*l*) of this clause.

Clause 32.—This clause is merely consequential on the decision to consolidate.

4. The Bill was published in the Gazette of India, dated the 1st April, 1922.

5. We think that the Bill has not been so altered as to require re-publication, and we recommend that the consolidating Bill proposed by us be passed.

NOTE OF DISSENT.

I have signed the report of the Select Committee subject to the following note of dissent:—

(*a*) *Section 23 (b).*—I am of opinion that the discretion of the owner to select his arbitrators should be left unfettered and the words "who shall be persons ordinarily resident, and liable to pay taxes, in the cantonment" should be deleted. There appears no reason why the two arbitrators should not belong to outside the cantonment limits.

(*b*) *Section 23 (c).*—Here, again, I don't see the necessity of the limitations imposed in the latter part of the section as to the qualifications of a Chairman. Nor do I see why the Commanding Officer should nominate him. In my opinion, the Chairman should be selected by a majority of the four members; and in case there is no majority, the power should rest in the District Magistrate. I would, therefore, delete all the words from "and" in line 3 to the end, and substitute the following:—

"to be elected by the four members nominated under (*a*) and (*b*) or a majority of them. Should there be no majority in favour of any person, the District Magistrate shall, on the request of the Commanding Officer of the cantonment, nominate the Chairman of his own selection."

(*c*) The criterion for fixing the percentage of rent, contained in the concluding clause, *viz.*, "as is for the time being recoverable by way of annual rent on the market value of *similar houses in the cantonment*," is not a proper or equitable one, for the reason that hardly any new buildings have been put up in cantonment areas in recent years, and in the case of the old buildings which therefore would form the criterion or even if new ones if any, the rents have been fixed by the Cantonment Authorities, arbitrarily, at most nominal rates which are far from anything like an adequate return on the outlay. This however affects cantonments pure and simple and has no bearing on a composite cantonment like Karachi, part Civil and part cantonment to the case of which the section in the present form would be highly inequitous and should be modified so as to base the rent of cantonment buildings on the percentage recoverable on similar buildings in the civil area in the vicinity. I am recasting clause 27 as follows showing in *italics* the additions I propose:—

Calculation of rent by Committee of Arbitration

27. "In determining the amount of rent to be paid for a house, the Committee of Arbitration shall estimate the market value of the house at the date on which the notice was served on the owner under section 7, and in *places where there are no populated civil areas adjoining cantonment areas*, shall fix the annual rent at such percentage on that value as is for the time being recoverable by way of annual rent of the market value of similar houses in the cantonment.

Where, however, there are populated civil areas adjoining cantonment areas the annual rent on cantonment buildings shall be fixed at such percentage on their market value as is for the time being recoverable by way of annual rent on the market value of similar houses in the adjoining civil area in the locality concerned.

Surrender of house when to be enforced [Section 13, Clause 11.]

12. If the owner fails to give possession of a house to the *Commanding Officer of the cantonment* in pursuance of a notice issued under section 7, or if the existing occupier fails to vacate a house in pursuance of such a notice, the District Magistrate, by himself or by another person generally or specially authorised by him in this behalf, shall enter on the premises and enforce the surrender of the house.

Option in certain cases for owner on whom notice is issued under section 7 to call upon the Government to purchase. [Section 14, Clause 12.]

13. (1) If a house, in respect of which a notice is issued under section 7, is shown to the satisfaction of the Local Government, or is proved by a decree or order of a Court of competent jurisdiction, to have been erected—

(a) under any conditions, rules, regulations or orders which were in force in Bengal prior to the eighth day of December 1864, and conferred on the owner the option of offering the house for sale to the military officer applying for its appropriation for his occupation or to the East India Company or the Government, or

(b) under any conditions, rules, regulations or orders which were in force in Bombay prior to the first day of June 1875, and conferred such an option as is described in clause (a),

then the owner shall have the option of either complying with the notice or offering the house for sale to the Government.

(2) If the owner elects to sell the house, and the Government is willing to purchase it the question of the amount of purchase-money to be paid shall, in the event of disagreement, be referred to a Committee of Arbitration.

14. (1) If a house *in respect of which a notice is issued under sect on* 7, is occupied by a tenant holding in good faith and for valuable consideration under a registered lease for any term exceeding one year, the Secretary of State for India in Council shall, for the term of one year from the date on which the house is vacated in pursuance of the notice, or for the unexpired term of the lease whichever is the shorter, be liable to the owner for the rent fixed by the registered lease instead of for the rent payable under this Act if the rent so fixed exceeds the rent so payable.

(2) If a house, in respect of which a notice is issued under section 7, is occupied by a tenant holding in good faith and for valuable consideration under a registered lease from year to year, the Secretary of State for India in Council shall be liable as aforesaid for the term of six months from the date on which the house is vacated in pursuance of the notice.

(3) Nothing in this section shall be deemed—

(a) to render the said Secretary of State in Council so liable unless an application in writing in this behalf is made by the owner to the *Commanding Officer of the cantonment* within fifteen days from the service of the notice; or

(b) to limit or otherwise affect any agreement between the said Secretary of State in Council and the owner.

[Section 13, Clause 14.] Power for owner to require reference to arbitration on question of rent.

13. (1) If the owner considers that the rent stated in a notice issued under section 7 is not reasonable, he may, within a period of fifteen days from the service of such notice, require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration.

(2) If the owner does not make such a requisition within the said period, he shall be deemed to have accepted the rent so offered.

[Section 13, Clause 15 (1).] Power for owner to require reference to arbitration on question of repairs.

14. (1) If the owner fails to execute any repairs to a house as *required by a notice issued to him under section 7, the Commanding Officer of the cantonment* may by notice require the owner to execute the repairs within such period, not being less than fifteen days, as may be specified in the notice.

(2) If the owner objects to any *repairs specified* in a notice issued under sub-section (1), he may, within fifteen days from the service of the notice, require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration.

[Section 13, Clause 17 (1).] Power to have repairs executed and recover cost.

17. Where—

(a) the owner fails to comply with a notice issued under sub-section (1) of section 16 and has not, within fifteen days from the service of such notice, required that the matter be referred to a Committee of Arbitration, or

(b) a Committee of Arbitration decides that repairs are necessary and the extent to which they are necessary, and specifies the period within which they are to be executed, and the owner fails to execute them within such period, *and has not within one month from the date of the decision appealed therefrom to the Civil Court as hereinafter provided, or*

(c) *the owner fails to execute within such period as may be specified by the Civil Court hearing such appeal such repairs as the Court may decide to be necessary,*

the Military Works Services or the Public Works Department shall on the application of the *Commanding Officer of the cantonment*, cause the repairs specified in the notice or, if the matter has been referred to a Committee of Arbitration, to the decision of the Committee *or the Civil Court, as the case may be*, to be executed at the expense of the *Government*, and the cost thereof *may be deducted* from the rent *payable to the owner*.

[Section 23, Clause 12.] Notice in respect of devolution of interest in house or tenement.

18. Every person on whom devolves, by transfer, by succession or by operation of law, the interest of an owner in any house, or in any part of any house, situate in a cantonment or part of a cantonment in respect of which a notification under sub-section (1) of section 5 is for the time being in force, shall be bound to give notice of the fact *to the Commanding Officer of the cantonment* within one month from the date of such devolution and if he, without reasonable cause, fails to do so, he shall be punishable with fine which may extend to fifty rupees.

H. MONCRIEFF SMITH,
Secretary to the Government of India.

The following Report of the Joint Committee on the Bill to consolidate and amend the law relating to steam boilers was presented to the Legislative Assembly on the 15th January 1923 —

1. Opinions on the Bill

2. Proviso of sub-section.

We, the undersigned, Members of the Joint Committee to which the Bill to consolidate and amend the law relating to steam-boilers was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

The Committee elected the Honourable Mr. Innes as Chairman. One of the Members resigned his seat on the Legislature after the Committee was appointed; five others, by various reasons, were prevented from attending.

Clause 1.—We note that there is local objection to the application of the Bill being extended to British Baluchistan. Having regard to the objects with which the Bill was introduced, we should prefer not to exclude British Baluchistan by Statute. Should the Act prove unworkable there, the powers of exemption provided by clause 4 can be brought into operation.

Clause 2 (a).—We consider that the definition of "accident" includes all accidents which need be brought within the scope of the Bill. We have therefore altered the word "includes" to "means", and we have made one other small change to restrict what we consider to be the unnecessarily wide scope of a portion of the definition.

Clause 2 (d).—Suggestions have been made that super-heaters should be brought within the Bill. After listening to expert evidence on this point, we are of opinion that super heaters are not likely to be the frequent cause of serious accidents, and we have not therefore given effect to this suggestion.

Clause 2 (f).—After considerable discussion we have come to the conclusion that the provisions of the Bill relating to steam-pipes go unnecessarily far, and we have made a number of alterations in the Bill in this respect to which, we think, it is convenient to refer at this point. In the first place, we have, in the definition, excluded from the Bill steam pipes not exceeding three inches in internal diameter. Expert advice satisfies us that serious accidents are not likely to occur in steam pipes of smaller diameter. We think that hardship and inconvenience might be caused if the law should lay down, as proposed in clause 8, that on accident to or an alteration, addition or renewal in or to a steam-pipe should automatically invalidate the boiler certificate. So far as an accident to a steam-pipe is concerned, we propose that it should be reported as laid down in clause 17 (now clause 18) of the Bill. On receipt of the report, the Inspector can make an inspection if he thinks proper. By the alteration we have made in clause 8 (1) (*a*) [now clause 6 (1) (*f*)], the Chief Inspector or Inspector will be able to annul the certificate by issuing an order prohibiting the use of the boiler on the ground that a steam-pipe attached thereto is in a dangerous condition. We think that this is sufficient in regard to accidents to steam pipes. As regards alterations and renewals, we have confined the operation of clause 12 of the Bill to boilers and we have introduced a new clause immediately following to deal with steam-pipes. We do not think that previous sanction to an alteration or renewal should always be necessary, but we provide that previous intimation with prescribed particulars is to be given in writing to the Chief Inspector. An inspection can then be made. The boiler certificate will meanwhile remain in force, but we give the Chief Inspector power to direct that it shall cease to be in force if he so thinks fit. [*See* clause 8 (1) (*e*).] We do not propose any change in the provisions of clause 8 (4) (*b*), now clause 6 (5) (*b*).

Clause 3 (2).—We have not given effect to the suggestion that railways should be automatically excluded from the operation of the Bill. We think this will be going too far and that the power to exempt is sufficient.

Clause 4.—We have considered the suggestion of the Burma Government that the power to limit the operation of the Bill affected by this clause should be vested in the Local Governments. We think this is inadvisable. We understand that some time will elapse after the passing of the Bill before it is brought into operation, and in the interval Local Governments will have ample opportunity to consider their position and to make proposals to the Government of India for the exclusion of particular areas.

Clause 6.—We refer to the addition made to this clause in our remarks on clause 11.

Clause 7.—We have given effect to a suggestion that where the Chief Inspector refuses to register a boiler, he should communicate his reasons in writing to the owner. We think also there is some force in the suggestion of the Bombay Government that there should be a power to issue a provisional order pending the giving of a final certificate or the refusal thereof. We think, however, that it would be more suitable that the provisional order should be issued by the Inspector, and we have provided for this by a small alteration in clause 9.

Clause 8.—We have already referred to some of the changes we have made in this clause. With regard to sub-clause (1) (*c*), doubts have been expressed as to whether small vertical boilers are excluded from the operation of the clause. We have made an amendment in the sub-clause which, we think, will make the matter clear. We have added a sub-clause after sub-clause (1) providing that the reasons for the making of an order under (1) (*c*), now (1) (*f*), are to be communicated to the owner.

We think that the provisions of clause 8 (*f*) are in some respects unsatisfactory. Reading the sub-clause with clause 16 of the Bill, we note that there may be a short period between the expiry of the certificate and the making of the application during which the use of the boiler is unauthorized and illegal. We do not think there is any point in laying down a limit of forty-eight hours within which an application for renewal is to be made. It may take an owner longer than this to make up his mind whether in the case of an accident he desires to renew the certificate for the boiler or not. We therefore think that in the general case the making of an application for renewal should be in the discretion of the owner and, in the case where the certificate is lapsing by reason of the expiry of the period for which it was granted, we would merely penalise the owner by the application of clause 16 if he does not apply for renewal before the certificate lapses.

We have provided here again that the Chief Inspector shall communicate in writing to the owner his reasons for refusing to renew a certificate.

Clause 9.—In our remarks on clause 3 (*f*) and clause 7, we have already explained two of the alterations made in this clause. We have made an addition to provide that the pressure entered in a provisional order is to be in accordance with regulations made under the Act, as in the case of a certificate issued under clauses 7 and 8. We also think that there is no harm in allowing a provisional order to be issued in cases, where a renewal of the certificate is rendered necessary by an accident; we have accordingly omitted the words that prevented this.

Clause 11.—The Bill excluded altogether the provisions of several local Acts which provide for a system of certificates of competency for boiler attendants. We realize that some of the Local Governments may prefer to adhere to their present practice. By an addition to clause 23 (new clause 29) we have enabled Local Governments to make rules on this point, and in clause 11 we provide that in areas where such rules have been made a certificate may be revoked if the boiler is in charge of a person who does not hold a certificate of competency required by the rules. We have also in clause 6 made an addition prohibiting the use of a boiler in similar circumstances. We have provided here also that where a certificate is revoked in any province where a system of certificates of competency for boiler attendants is not in force on the ground that the person in charge is not, in the opinion of the Chief Inspector, having regard to the condition of the boiler, competent to have charge thereof, the Chief Inspector shall communicate his reasons in writing to the owner.

Clause 12 *and new clause* 13.—We have explained the changes we have made here in our remarks on clause 8. We would only add that to clause 10 (now clause 20), we have provided for an appeal against a refusal by the Chief Inspector of sanction to structural alterations, additions or renewals in or to a boiler.

Clause 23 (*new* 24).—We note that though the Bill requires the person in charge of a boiler as well as the owner to report accidents, yet this clause only penalises the owner. We have therefore re-drafted the clause, and in sub-clause (*c*) we have made it clear that tampering with a safety valve is an offence when it renders it inoperative at the maximum pressure entered in the certificate.

Clause 25 (*new* 26).—The drafting of this clause has been criticised, and we have therefore put it into a form which follows precedents. We have reduced to six months the period within which a prosecution under the Act must be instituted.

2. The Bill was published in the Gazette of India, dated 8th September 1923.

3. We think that the Bill has not been so altered as to require republication, and we recommend that it be passed as now amended.

7. (*1*) The owner of any boiler which is not registered under the provisions of this Act may apply to the Inspector to have the boiler registered. Every such application shall be accompanied by the prescribed fee.

(*2*) On the receipt of an application under sub-section (*1*), the Inspector shall fix a date, within thirty days or such shorter period as may be prescribed from the date of the receipt, for the examination of the boiler and shall give the owner thereof not less than ten days' notice of the date so fixed.

(*3*) On the said date the Inspector shall proceed to measure and examine the boiler and to determine in the prescribed manner the maximum pressure, if any, at which such boiler may be used, and shall report the result of the examination to the Chief Inspector in the prescribed form.

(*4*) The Chief Inspector, on receipt of the report, may—

(*a*) register the boiler and assign a register number thereto either forthwith or after satisfying himself that any structural alteration, addition or renewal which he may deem necessary has been made in or to the boiler or any steam-pipe attached thereto, or

(*b*) refuse to register the boiler:

Provided that where the Chief Inspector refuses to register a boiler, he shall forthwith communicate his refusal to the owner of the boiler together with the reasons therefor.

(*5*) The Chief Inspector shall, on registering the boiler, order the issue to the owner of a certificate in the prescribed form authorising the use of the boiler for a period not exceeding twelve months at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act.

(*6*) The Inspector shall forthwith convey to the owner of the boiler the orders of the Chief Inspector and shall in accordance therewith issue to the owner any certificate of which the issue has been ordered, and, where the boiler has been registered, the owner shall within the prescribed period cause the register number to be permanently marked thereon in the prescribed manner.

Renewal of certificate.

8. (*1*) A certificate authorising the use of a boiler shall cease to be in force—

(*a*) on the expiry of the period for which it was granted, or

(*b*) when any accident occurs to the boiler, or

(*c*) when the boiler is moved, *the boiler not being a vertical boiler the heating surface of which is less than two hundred square feet*, or a portable or vehicular boiler; or

(*d*) when any structural alteration, addition or renewal is made in or to the boiler; or

(*e*) *if the Chief Inspector in any particular case so directs, when any structural alteration, addition or renewal is made* in or to any steam-pipe attached to the boiler; or

(*f*) on the communication to the owner of the boiler of an order of the Chief Inspector or Inspector prohibiting its use on the ground that it *or any steam-pipe attached thereto* is in a dangerous condition.

(*2*) *Where an order is made under clause (f) of sub-section (1), the grounds on which the order is made shall be communicated to the owner with the order.*

(*3*) When a certificate ceases to be in force, the owner of the boiler may apply to the Inspector for a renewal thereof for such period not exceeding twelve months as he may specify in the application.

(*4*) An application under sub-section (*3*) shall be accompanied by the prescribed fee and, on receipt thereof, the Inspector shall fix a date, within thirty days or such shorter period as may be prescribed from the date of the receipt, for the examination of the boiler and shall give the owner thereof not less than ten day's notice of the date so fixed:

Provided that, where the certificate has ceased to be in force owing to the making of any structural alteration, addition or renewal, the Chief Inspector may dispense with the payment of any fee.

(*5*) On the said date the Inspector shall examine the boiler in the prescribed manner, and if he is satisfied that the boiler and the steam-pipe or steam-pipes attached thereto are in good condition shall issue a renewed certificate authorising the use of the boiler for such period not exceeding twelve months and at a pressure not exceeding such maximum pressure as he thinks fit and as is in accordance with the regulations made under this Act:

Provided that if the Inspector—

(*a*) proposes to issue any certificate—

(i) having validity for a less period than the period entered in the application, or

(ii) increasing or reducing the maximum pressure at which the boiler may be used, or

(*b*) proposes to order any structural alteration, addition or renewal to be made in or to the boiler or any steam-pipe attached thereto, or

(*c*) is of opinion that the boiler is not fit for use,

the Inspector shall, within forty-eight hours of making the examination, inform the owner of the boiler in writing of his opinion and the reasons therefor, and shall forthwith report the case for orders to the Chief Inspector.

(5) The Chief Inspector, on receipt of a report under sub-section (*5*), may, subject to the provisions of this Act and of the regulations made hereunder, order the renewal of the certificate in such terms and on such conditions, if any, as he thinks fit, or may refuse to renew it:

Provided that where the Chief Inspector refuses to renew a certificate, he shall forthwith communicate his refusal to the owner of the boiler, together with the reasons therefor.

(7) Nothing in this section shall be deemed to prevent an owner of a boiler from applying for a renewed certificate therefor at any time during the currency of a certificate.

Provisional orders.

9. Where the Inspector reports the case of any boiler to the Chief Inspector under *sub-section (5) of section 7 or* sub-section (*5*) of section 8, he may, if the boiler is not a boiler the use of which has been prohibited under clause (*f*) of sub-section (*1*) of section 8, grant to the owner thereof a provisional order in writing permitting the boiler to be used at a pressure not exceeding such maximum pressure as he thinks fit and *as is in accordance with the regulations made under this Act* pending the receipt of the orders of the Chief Inspector. Such provisional order shall cease to be in force—

(*a*) on the expiry of six months from the date on which it is granted, or

(*b*) on receipt of the orders of the Chief Inspector, or

(*c*) in any of the cases referred to in clauses (*b*), (*c*), (*d*) (*e*) and (*f*) of sub-section (*1*) of section 8,

and on so ceasing to be in force shall be surrendered to the Inspector.

Use of boiler pending grant of certificate.

10. (*1*) Notwithstanding anything hereinbefore contained, when the period of a certificate relating to a boiler has expired, the owner shall, provided that he has applied *before the expiry of that period* for a renewal of certificate, be entitled to use the boiler at the maximum pressure entered in the former certificate pending the issue of orders on the application.

(*2*) Nothing in sub-section (*1*) shall be deemed to authorise the use of a boiler in any of the cases referred to in clauses (*b*), (*c*), (*d*), (*e*), and (*f*) of sub-section (*1*) of sub-section 8 occurring after the expiry of the period of the certificate.

Revocation of certificate of provisional order.

11. The Chief Inspector may at any time withdraw or revoke any certificate or provisional order on the report of an Inspector or otherwise—

(*a*) if there is reason to believe that the certificate or provisional order has been fraudulently obtained or has been granted erroneously or without sufficient examination; or

(*b*) if the boiler in respect of which it has been granted has sustained injury or has ceased to be in good condition or

(*c*) *where the Local Government has made rules requiring that boilers shall be in charge of persons holding certificates of competency, if the boiler is in charge of a person not holding the certificate required by such rules*; or

(*d*) *where no such rules have been made*, if the boiler is in charge of a person who is not, *having regard to the condition of the boiler*, in the opinion of the Chief Inspector competent to have charge thereof.

Provided that where the Chief Inspector withdraws or revokes a certificate or provisional order on the ground specified in clause (d), he shall communicate to the owner of the boiler his reasons in writing for the withdrawal or revocation, and the order shall not take effect until the expiry of thirty days from the receipt of such communication.

Alterations and renewals to boilers.

12. No structural alteration, addition or renewal shall be made in or to any boiler registered under this Act unless such alteration, addition or renewal has been sanctioned in writing by the Chief Inspector.

(*c*) in the case of an application for the registration of a boiler, to provide such drawings, specifications, certificates and other particulars as may be prescribed.

(*2*) If the owner fails, without reasonable cause, to comply with the provisions of sub-section (*1*), the Inspector shall refuse to make the examination and shall report the case to the Chief Inspector who shall, unless sufficient cause to the contrary is shown, require the owner to file a fresh application under section 7 or section 8, as the case may be, and may forbid him to use the boiler notwithstanding anything contained in section 10.

H. MONCRIEFF SMITH,
Secretary to the Government of India.

The following Report of the Joint Committee on the Bill to amend and consolidate the law relating to the regulation and inspection of mines was presented to the Legislative Assembly on the 16th January, 1923 :—

1. Paper No. I.
2. Paper No. II.
3. Précis of opinions.

We, the undersigned, Members of the Joint Committee to which the Bill to amend and consolidate the law relating to the regulation and inspection of mines was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

The Committee elected the Honourable Mr Innes as Chairman. Sixteen members out of a total of eighteen attended the meetings of the Committee.

Before proceeding to the detailed examination of the Bill clause by clause, the Committee considered what were to be the three most important points which arise in connection with the Bill. These are the definitions of "mine" and "child", and the question of the employment and presence of women and children in mines. We accordingly deal with these matters first in our report.

Clause 3 (j).—The definition of a "mine" has caused considerable difficulty. Section 3 (*d*) of the existing Act has proved unsatisfactory. In the first place, it is difficult to interpret. It merely states what a mine includes, not what it is, while at the same time specifically excluding excavations the depth of which does not exceed 20 feet and no part of which extends beneath the superjacent ground. This exclusion has led to many difficulties; for instance, an excavation might be a mine for one part of the year, and cease to be a mine at other times; while in places where excavations are on sloping ground, considerable argument has arisen as to how depth should be measured. In the second place, a more serious objection to the existing definition is that it excludes excavations which ought properly to be controlled under the Act. For instance, a mine whose mine which may be less than 20 feet in depth and no part of which may extend beneath the superjacent ground, may be in point of practice highly dangerous.

It is for these reasons that in the Bill as referred to us a much wider definition of a mine has been attempted, and the exclusion of excavations of less than a certain depth has been deleted. Certain Local Governments have raised objections on the ground that the definition now proposed is too wide. It is urged that it brings within the scope of the Act surface excavations to which it is both unnecessary and impracticable to apply the Act. It will embrace, for instance, small quarries and excavations less than 20 feet in depth for the extraction of boulder manganese, clays, limestone or clay, the control of which is not merely unnecessary but would prejudice the interests of the industry, and would, if it is to be at all effective, involve the appointment of an unnecessarily expensive staff. While we fully realize the force of these objections and agree that excavations of this nature should not be covered by the Act, we think it impossible to devise a satisfactory definition, which will exclude all the classes of excavations which ought to be excluded, with out, at the same time, excluding others which ought not. And we cannot therefore agree to retain the section in the existing law which confers a statutory and wholesale exemption on all excavations which do not exceed a depth of 20 feet and no part of which extends beneath the superjacent ground. We think it will be better to retain the wider definition contained in the first part of the clause of the Bill as referred to us, and leave it to the Governor-General in Council under clause 46 to exempt particular mines or classes of mines from all or such provisions of the Act as cannot suitably be applied to them. At the same time, for the sake of simplicity of definition and in pursuance of the principle that mere complex exemptions should preferably be made by rule, we have deleted the second and third provises to the definition. Incidentally we may add that the second proviso appears to us to be unnecessary, while, as pointed out by the Government of Burma, the third would exempt certain excavations made for prospecting purposes only, which it is desirable to include.

We recognise that our proposal is open to the criticism that it leaves a wide discretion to the executive authorities to decide what minor excavation should or should not be brought within the scope of the Act. We are, however, convinced that in view of the widely varying conditions under which mining operations are conducted in different parts of this country, it is better to permit this elasticity than to frame a more rigid definition which would certainly have the effect of excluding certain operations which ought properly, to be brought under control.

Employment of women.—The present law regarding the employment of women is contained in section 2a (*f*) (*i*) of Act VIII of 1901. This is a provision which enables rules to be made prohibiting, restricting or regulating the employment of women either below ground or on particular kinds of labour where the employment is attended by danger. The rule-making power vests in the Governor-General in Council or the Local Government. The Bill referred to us in clause 30 (*c*) enables a Local Government, subject to control, to make rules prohibiting, restricting or regulating the presence or employment in mines of women, either above or below ground or on particular kinds of labour. It is we think generally realized that the absolute prohibition of the employment of women below ground in coal mines is a mere matter of time. It cannot be introduced at once because time must be given to employers to replace the labour of the 20,000 women who are at present working in mines. Some of us pressed for the inclusion of a statutory prohibition in the Bill with a provision that it should not come into force for five years after the passing of the Bill. We think, however, that this would involve such a radical alteration in the Bill that re-circulation would be essential, and as we are reluctant to delay its passage, we think it desirable to attempt to effect a compromise. We have, in the first place, transferred the provision relating to the employment of women from clause 30 to clause 29 of the Bill, so that the power of control may vest in the Governor-General in Council. We have further re-drafted the provision so as to follow more closely the wording of the present law. We desire, however, to place on record a recommendation that the question of the employment of women below ground in mines should be taken up as a very early date with Local Governments with a view to prohibiting such employment either in all mines or in particular classes of mines at the end of a specified period, which we think should be about five years.

Children.—With one dissentient, we were of opinion that the maximum age of a child laid down in the present Act should be raised. The necessity for this arises from the fact that it is at present impossible to adopt a half time system in mines. Some of us would have raised the age to 14 and one member was in favour of raising it to 15, but by a considerable majority we decided to maintain the age of 13 laid down in the Bill.

By a majority also, we have decided to maintain the absolute prohibition laid down in clause 26 of the employment of children in mines, though some of us were inclined to allow the employment of children above ground. On the understanding that the Bill when passed should not be brought into operation earlier than the 1st of July 1924, we unanimously agreed to maintain the second part of clause 26, which prohibits the presence of children in any part of a mine below ground. Our colleague Mr. Barker would like the operation of this clause to be postponed still further.

We now proceed to explain the important changes which we have made in the Bill.

Clause 1 (3).—We think that definite notice should be given in the law of the date on which it is to come into force, and we think this date should be the first day of July 1924.

Clause 5.—We do not think it necessary to lay down in the Bill that the powers of the Chief Inspector under this clause should be subject to regulations.

Clause 11 (5).—In view of the changes which we have proposed in clause 12, we think that the power to lodge objections against the decision of a Committee should rest with the Chief Inspector only.

Clause 16.—The proviso and the sub clause which we have here added are based on the English law on the subject. We discussed at some length the relative merits of our existing law and of the English law, and by a majority of one only decided in favour of something on the lines of the latter.

Clause 18.—We think that only an Inspector who has been authorized by the Chief Inspector should be empowered to issue orders under sub-clause (*c*). We further think that the machinery which the clause provides for the hearing and decision of objections is unnecessarily cumbrous, and we see no reason why objections should not be made direct to the Local Government for reference to a Committee. We have laid down that where an Inspector makes an order under sub-clause (*c*), there is to be an appeal within ten days to the Chief Inspector, and that objections may be made to

the Local Government against a requisition under sub-clause (*b*), or an order under sub-clause (*c*) or an appellate order of the Chief Inspector under the new sub-clause which we have inserted as sub-clause (*d*). We have made a consequential amendment in clause 11 (*4*).

Clause 20.—We have given effect to the suggestion that this clause should be elaborated to make notice necessary of notbreaks of fire or irruptions of water. We have made consequential amendments in clauses 21 and 38.

Clause 27.—In view of the definition of 'qualified medical practitioner', we do not think it necessary to retain the words "specially authorised by the Local Government in this behalf".

Clauses 29 and 32.—Apart from the change we have made with regard to the control of the employment of women, the alterations we have made in these clauses are more or less formal.

Clause 31.—We have provided that regulations as well as rules shall be referred to the Mining Boards before they are published for criticism.

Clause 38.—In this clause we have restored the period of two months prescribed in the present law within which drafts of bye laws are to be submitted to the Chief Inspector. We have also restored the provision which appears in the present law which enables the Local Government to rescind bye-laws which have already been approved by it.

Clause 39.—The punishment provided in this clause, though suitable for the offences of obstruction which are enumerated in the first part of the clause seems to be unnecessarily severe for the offences defined in the latter part of the clause. We have therefore divided the clause into two parts and provided separate penalties.

Clause 41.—We think that the power to institute prosecutions should rest only in selected Inspectors.

Clause 42.—We have restored the form of the section in the present Act.

Clause 43.—We do not think it desirable that Subdivisional Magistrates of the second class should be empowered to try offences under the Act.

Clause 44.—We have added a sub-clause to make it clear what are the powers of the Local Government when a report is made to it under this clause.

The other amendments which we have made in the Bill and which have not been specifically referred to in this report are, we think, of minor importance.

2. The Bill was published in the *Gazette of India*, dated the 16th September 1922.

3. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.
